Technical Skills

Frontend: HTML5, CSS, JQuery, Javascript, Bootstrap, Bulma, AJAX, Responsive Design
Backend: MySQL, MongoDB, Express, ReactJS, Jest, Node, GraphQL, Redux, Handlebars, PWA, Webpack

Projects

Pic'd Up | picd-up-project.herokuapp.com/   Main Contributor
- Built a single-page application, with an Instagram-inspired design that allows photographers to showcase their portfolio efficiently. Potential clients can shop for photographers based on the type of photography.
- Utilize REST GET, POST, and DELETE methods to facilitate front-end and Node.js back-end communication.
- Utilize Resource and Collection API design principles to implement photographer functionality.
- Optimize back-end API handler retrieval with Registry Design Pattern.
- Utilize REACT hooks to implement promise-based asynchronous API calls.
- Login creates user session handled by session context variables.
- Technologies: MongoDB, GraphQL, React, Bulma CSS

Self-Care | ronan-codes-self-care.herokuapp.com/   Main Contributor
- A simple and convenient journaling app that follows the MVC paradigm. It utilizes a third-party datepicker app (Zebra Datepicker) to seamlessly keep record of daily journal entries.
- Utilizes Sequelize to map MySQL database CRUD operations to user and journal entry data models.
- Utilize Express.js framework and Express-Handlebars and Express-Session middlewares to implement MVC paradigm.
- Technologies: Sequelize, MySQL, Express.js, Express Handlebars, Node.js

DateNite | justpuzey.github.io/DateNite/   Main Contributor
- DateNite simplifies the process of deciding what to eat & drink for date night. Simply provide a primary ingredient, and DateNite provides an easy meal recipe & an alcoholic/non-alcoholic drink.
- Accesses two server-side APIs to return a meal recipe & cocktail depending on client-side input.
- Technologies: HTML, Bulma CSS Framework, JS, TheMealDB API, TheCocktailDB API.
